Army Clothing - Proposed manufacture in jails.

I have the honour to state that, owing to greatly increas demands, it has become urgently necessary to increase rapidly the present manufacture of Army clothing, and I am directed to invite your assistance, etc., in expanding or beginning the manufacture o Army clothing in jails.

2. The Department of Supply are prepared to issue already cut components of garments to Jails together with the necessary garnit and based on this system whereby the jail authorities would only b required to arrange for the tailoring of the garments, the followi suggestions are offered for increasing output.

3. In jails where tailoring of uniform clothing is already carried out and where tailoring shops and experienced labour are already available, expansion of production can probably be arrange with little difficulty.

4. Where tailoring of garments is not already included in the activities of jails, it might be possible to arrange for tailoring to be started, transferring a nucleus of skilled labour from jails already undertaking tailoring for instructional purposes to jails taking up this work for the first time.

5. In both cases, as the contract rates usually paid are adequate to provide a liberal wage to experienced durzis in the op market, it is suggested that the installation of additional sewing machines would be worth consideration.

6. From the point of view of the Department of Supply, it wou be preferable for the expansion of manufacture to be concentrated a few centres as numerous small and scattered units would be more difficult to supervise and control. The Government of India woul be prepared to arrange for the posting of an Army Clothing Inspect at a Jail if the volume of production justified this course and th services of the Inspector would then be available for general supe vision and instruction.

7. The Government of India would be grateful if the expansio of jail production of Army clothing on the lines suggested in this letter could be given the most urgent attention of your Government and if they could be informed at an early date of the names of the Jails where this work could be undertaken. They will also be grateful for a rough estimate of the number of garments which it i considered could be produced each month (a) initially, and (b) aft special arrangements have been made. On receipt of this informat this Department would address the Jails whose names are intimated direct, with the object of entering into contracts if you have no objection.

CHIEF SECRETARY 31 JUL 1940 GOVT. OF MYSORE.

To The Chief Secretary to the Govt of His Highness the Maharaja of Mysore, Bangalore.

Sir,

Subject:- Manufacture of Army clothing in Jails.

With reference to your letter No. 330/C.B. dated the 25th July 1940 on the above subject, I have the honour to state that there are five sewing machines in the Tailoring Section of the Central Jail, Bangalore. It is ascertained that only 8 convicts are now employed in this section under a Tailor Maistry. The Superintendent of the Jail, who was consulted in the matter, reports that under the existing arrangements, it is possible to supply about 150 suits in a month and that, if some more convicts are trained and employed in this section and the existing number of Sewing Machines is increased by six more, with necessary equipment, the monthly supply can be raised to about 600 suits The cost of six sewing machines and other necessaries would come to abou Rs. 1700/- as per details furnished in the margin. I request therefore that sanction of Government to the purchase of the necessary equipment may kindly be accorded and the Government of India, Department of Supply requested to send cut components of garments to the Jail with the necess Garniture.

6 Sewing machines	1500/- 0
12 pairs of scissors ar Rs. 8/- a pair	96/- 0
2 Ironing Boxes @ Rs. 10/- each	20/- 0
Needles oil candle thread etc.	75/- 0
	0

In this connection I may note that there is no Tailoring in the Jail at Mysore and if one is started, the work of manufacturing Army Clothing can be undertaken also in that Jail. The additional cost on this account would be a little more than for the Central Jail, as a Tailoring Maistry has to be entertained newly in that Jail.

A copy of letter received from the Superintendent, Central Jail together with a copy of letter received from the Superintendent, Mysore Jail in the matter is enclosed.

I have the honour to be

Sir,

Copy of letter No. 335/F.45 dated 27-7-40 from the Superintendent, Central Jail, Bangalore to the Inspector-General of Prisons in Mysore, Bangalore.

[illegible] Tailoring Instructor [illegible]

With reference to your Office No. 354-1 to 2 dated 26th July 1940 regarding manufacture of Army clothing in Jails, I have the honour to state that there are now 5 sewing machines and only three professional convict-tailors in this Jail working under a Tailor Maistry and there are also 5 convicts who are being trained in tailoring. These 8 convicts under a Tailor Maistry who has worked in the Military when the 76th and 81st Battaries R.F.A. and O. Battery R.H.A. were stationed in Bangalore (1910). He is an experienced Tailor. At present all the uniforms required for the Prisons Department and some of the requirements of Hospitals and Veternary dispensaries and all clothing required for prisoners in the whole State are being stitched in the Tailoring Section of this Jail, The number of prisoners in this Jail is at present large and I think it is possible to select 25 suitable men out of them and to detail them to learn tailoring under the Instructor. The number of sewing machines has to be increased by another five or six. As mentioned in the Government of India letter (Vide copy enclosed with your memo to me) cut garments and a garniture may be supplied to this Jail. Permission may kindly be given for the purchase of 6 more sewing machines. As there are not many professional convict-tailors now in the Jail and convicts who knew nothing of tailor-work before have to be trained, the tailoring of Army clothing in the initial stages is bound to be poor and slow. When more trained convicts become available the out-turn will increase appreciably, and then an Army clothing Instructor may be posted to this Jail for supervision. Needles, oil, candle and thread are the other necessary articles for undertaking the work. At present with the expert convict tailors we have it is possible to supply about 150 suits in a month and when special arrangements are made, this number can be raised to 500 to 600 suits per month, if the

the stitching now done for some of the State Hospitals is stopped. To guard against dislocation of tailoring work owing to releases, a steady flow of expert convict-tailors has to be maintained by training fresh convicts who could take the place of released men.

etter No. 464, dated 29th July 1940 from the Superintendent, Mysore Jail, Mysore to the Inspector-General of Prisons in Mysore, Bangalore.

With reference to your letter No. 354-1 do 2 dated 26th instant, forwarding the copies of letters received from the Government of India, and asking me for a report whether the Distr: Jail at Mysore can undertake the Tailoring of garments - on the lines suggested in their letter- I have the honour to submit a report as follows:-

The Tailoring Industry is not included in the activit of this Jail. But this industry could be started and put into effect immediately - provided the following facilities are given to this Jail.

1. Convicts - well trained in tailoring at the Banga Central Jail - are to be transferred to this Jail to get through the skilled labour efficiently.

2. The services of an expert and professional Tailo has got to be employed on a pay of Rs. 25/- per mensem to supervise the work of the convicts and to impart instructions now and then to manage with the work skilfully.

3. Six sewing machines or even more if permitted are required to be purchased immediately. At present the convict suits are being stitched with one sewing machine now in use in thi Jail.

The question then arised as to the cost to the Gover ment to start with this industry in this Jail. I beg to state th the recurring and non-recurring expenditure would be as follows:-

Non-recurring expenditures.

To start with the Industry at least 6 Sewing machines roughly at a cost of Rs. 250/- (war price) each	Rs. 1500-0-0
